ORDER

Adopted: November 24, 2014

Released: November 24, 2014

Extended Comment Filing Deadline: January 29, 2015

Extended Reply Comment Filing Deadline: March 2, 2015

By the Chief, International Bureau:

1. On September 30, 2014, the Commission released a *Further Notice of Proposed Rulemaking (FNPRM)* in which it initiated further review of Part 25 of its rules governing licensing and operation of space stations and earth stations.¹ A summary published in the Federal Register specified a deadline of December 15, 2014 for filing comments on the *FNPRM* and a January 14, 2015 deadline for filing reply comments.² By this Order, we extend these filing deadlines until January 29 and March 2, 2015.

2. This extension comports with the request of the Satellite Industry Association (SIA) to postpone the comment and reply deadlines by 45 days.³ Given the technical complexity and significant implications to the industry of many of the proposals aired in the *FNPRM*, SIA maintains that interested parties need additional time to respond.⁴ SIA also asserts that many satellite industry experts have been unavailable for consultation due to the ITU Plenipotentiary Conference held in Korea in October and November 2014.⁵ No party has opposed the proposed extension of time. Although the Commission does not routinely grant extensions of time,⁶ we agree that 45-day extensions of time for filing comments and reply comments are warranted in
